

## Siemens triumphs at industry awards

**Siemens has scooped two prestigious accolades at the recent ASLEC (Association of Signals, Lighting and other Highway Electrical Contractors) and HEMSA (Highway Electrical Manufacturers and Suppliers Association) annual awards ceremony. The awards, ASLEC Member of the Year (Large Organisation) and ASLEC Employee of the Year, recognise organisations and individuals who have made significant contributions to the highway electrical industry in the UK over the past 12 months.**

Director of Field Services at Siemens, Mick Murphy commented: 'winning these awards really reflects our commitment to business improvement initiatives, health and safety training and professional development. The fact that the awards were judged by our peers really puts our achievements over the past year into perspective.'

Peter Leslie, installation operative, based in Dundee was the proud recipient of the Employee of the Year Award. Peter joined Siemens in 2006 as part of the Siemens Electrotechnical Services Scholarship Programme.

As a dedicated and enthusiastic employee, Peter has received many commendations from customers, applauding his professionalism, dedication to purpose, high quality of workmanship and dexterity within the scope of installation practices. Peter's application of skills across all aspects of the traffic sector, exceptional achievements within a short timescale, and the level of trust and respect he has achieved allowed him to secure this prestigious award.

Peter Leslie said: 'I'm delighted that my achievements have been rewarded, particularly the new traffic signal junction installation at Kingsway Junction in Dundee. As an advancing trainee within Siemens, my ultimate goal is to progress within the company by developing my skills further and providing outstanding customer support.'

**Notes to editors:**

Photographs show Tony Page, Compliance Manager accepting the best in category award and Peter Leslie accepting his award for the highest placed trainee.
